

# Self-assessment tool

TO CREATE A GENDER-INCLUSIVE LEARNING ENVIRONMENT

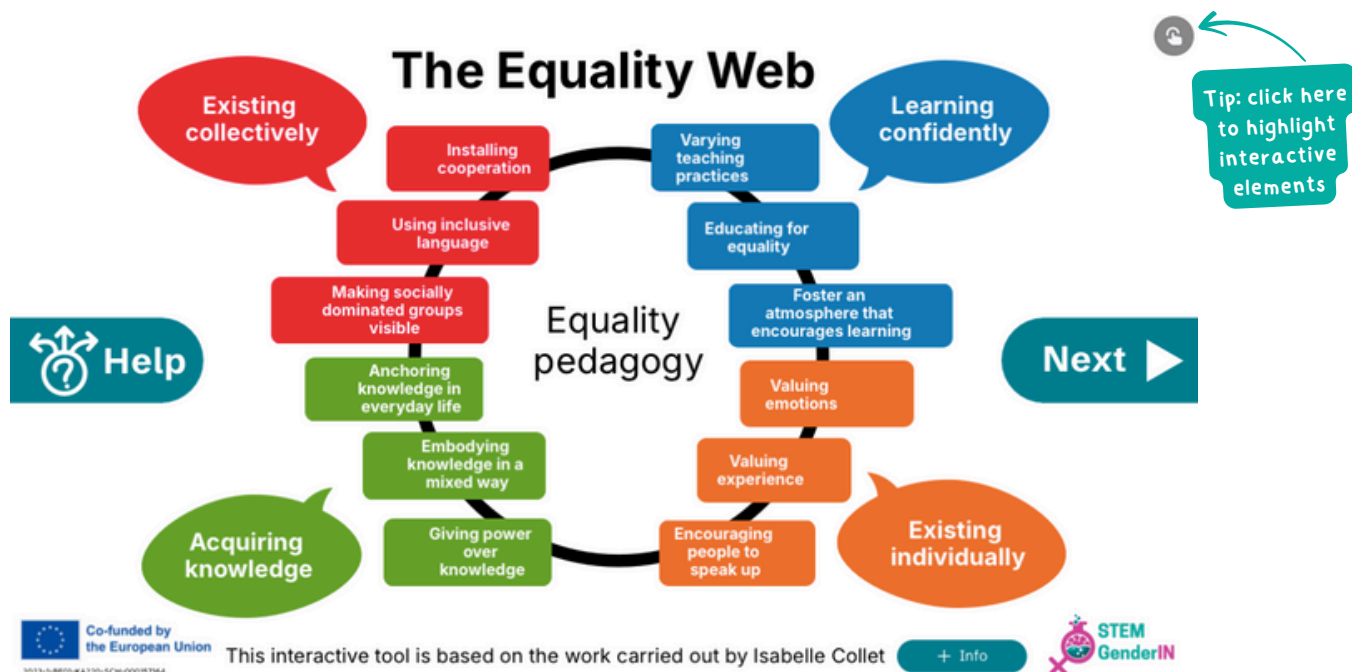

## Do you know the Equality Web?

The construction of an inclusive learning environment can be facilitated by using the Equality Web developed by Isabelle Collet (<https://interstices.info/appliquer-une-pedagogie-de-legalite-dans-les-enseignements-dinformatique/>). The Equality Web is an assessment tool that invites you to think critically about the root causes of inequalities, particularly those linked to gender, in two steps:

1. Identifying inequalities, often overlooked due to normalization.
2. Developing egalitarian resources and systems to address these inequalities.

## Try our interactive self-assessment tool!

In the framework of the [STEM GenderIN](#) project, a Genial.ly has been developed to explore the Equality Web and to guide you in the analysis of a learning situation you have implemented or observed: <https://www.stemgenderin.eu/self-assessment-tool>.

Once you are in the Equality Web Genial.ly, you will be guided step by step through the use of this tool.

**Enjoy your exploration!**
