Mini-Training # 2

bitly.cx/whole-stem

Follow a whole-school approach for the implementation of

concrete gender sensitive strategies.

# Personal thinking

| What am I doing well?   |
|---|
|   |
|   |
|   |
|   |
| What are my personal challenges in terms of gender sensitivity?               |
|   |
|   |
|   |
|   |
| What can I do to improve my practice?   |
|   |
|   |
|   |
|   |
| Do I have the same expectations from the students regardless of their gender? |
|   |
|   |
|   |
|   |
|   |
| Do I avoid assigning specific tasks to the students based on their gender?    |
|   |
|   |
|   |

# Going one step further

STEM GenderIN is an Erasmus+ project that aims at reducing the gender gap in STEM fields of study by reinforcing the skills of the teachers of STEM courses in terms of gender stereotypes and gender diversity management such as gender awareness, fight against gender stereotypes, gender-inclusive education and teaching, etc...

## Multi-lingual platform

The project's multilingual platform (English, French, Italian, Romanian and Portuguese) brings together all the resources created as part of the project. <a href="www.stemgenderin.eu">www.stemgenderin.eu</a> is the place to be to support gender equality in STEM education in the classroom!

## Mini-training program

10 mini-trainings are freely available and can be completed online at your own pace. Each mini-training lasts approximately 15 minutes and include information, awareness-raising tools and ready-to-use activities.

#### Resources

### **Equality Pedagogy in STEM: An EU Framework**

This report offer a deep dive in data and analytics about the fundamental elements for the explanation of the persisting gender inequalities and gaps in STEM fields and STEM education.

## A guide for including a gender perspective in STEM schools and education

Offers a comprehensive framework designed to integrate gender equality into STEM education. Key strategies, among other things include creating gender-sensitive action plans, eliminating stereotypes, using inclusive language, and incorporating the contributions of women in STEM. Additionally, the guide emphasizes a whole-school approach to foster a culture of gender equality, supported by continuous professional development for educators.

#### **Self-assessment interactive tool**

This interactive tool assists you in analyzing a learning situation you have implemented or observed and helps you identify practical ways to create a more inclusive learning environment for that situation.
