

A BRIDGE TO CLOSE THE STEM GAP WITH GENDER-INCLUSIVE EDUCATION AND TEACHING

LAST UPDATES FROM THE STEM GENDERIN WORLD!

Together with the 10 mini-courses, we developed **two self-assessment tools** to help teachers reflect on their teaching practices through a gender equality lens.

The first tool is the **Equality Web**, an assessment tool created by Isabelle Collet that invites thinking critically about the root causes of inequalities, particularly those linked to gender, in two steps:

1. Identifying inequalities, often overlooked due to normalization.
2. Developing egalitarian resources and systems to address these inequalities.

Try it out, analysing a learning situation you have implemented or observed!

The second tool is a **Checklist** of good practices to set up gender inclusive STEM activities.

Reflect on your daily teaching practice by answering our questions!

Checklist
OF GOOD PRACTICES TO SET UP
GENDER INCLUSIVE STEM ACTIVITIES

In my practice, I pay attention to

1. Biases and stereotypes awareness

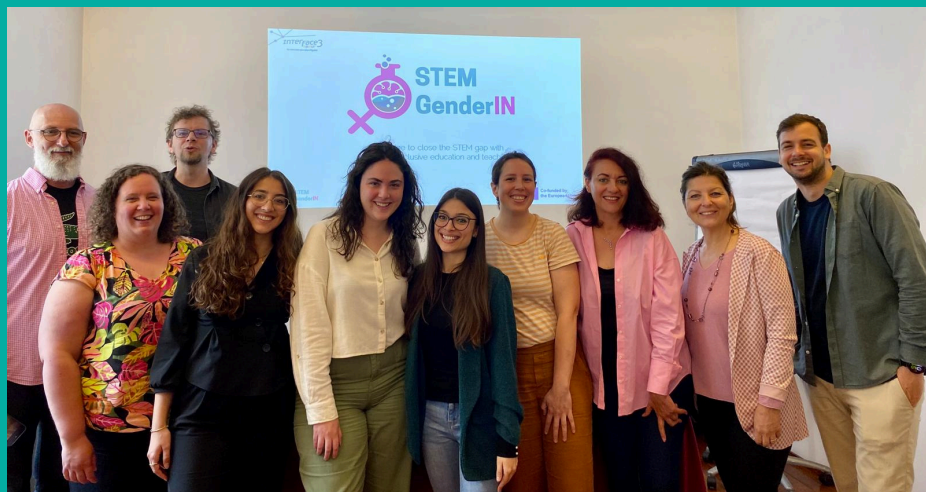

- ☐ Raise awareness of gender issues in STEM fields. [Mini-Training # 8](#) [https://evidis-in-stem.eu/activities-in-stem/](#) [Boost your skills in 15 minutes](#)
- ☐ Be able to identify and react to sexist stereotypes. [Mini-Training # 1](#) [https://evidis-in-stem.eu/activities-in-stem/](#) [Boost your skills in 15 minutes](#)
- ☐ Question and be aware of my own gender biases.
- ☐ Integrate discussions on gender equality.

2. Inclusive environment and teaching materials

- ☐ Use inclusive and varied teaching materials. [Mini-Training # 3](#) [https://evidis-in-stem.eu/activities-in-stem/](#) [Boost your skills in 15 minutes](#)
- ☐ Use inclusive language.
- ☐ Foster an atmosphere of listening and caring for classroom interaction.
- ☐ Implement gender inclusive practices in STEM teaching. [Mini-Training # 10](#) [https://evidis-in-stem.eu/activities-in-stem/](#) [Boost your skills in 15 minutes](#)
- ☐ Highlight the diversity of people in examples, roles and situations.

Partners are organizing a series of events for the **final dissemination phase** of the project. It has been an intense two years of activities and now our project is coming to an end. All the **STEM GenderIN** project partners **warmly thank you** for following the project and its results during these months!

Thank you!
